JAIL FOR SOME BAD BOYS

JUDGE DREIBELBISS METES OUT PUNISHMENT.

Bicycle Thieves Must Pay the Penalty—Other Boys Released—
News of the Police.

Judge Dreibelbiss was in rather an amiable mood this morning and was inclined to leniency in spite of annoying circumstances. Of the plainly defined cases of adults he made short work, but the other and more indefinite cases of youngsters, some less than 10 years of age, gave him more food for reflection.

In the cases of the boys, those who had not been arrested before were allowed to go after a reprimand and in the case of three others one was sent below to await a decision to be given later in the day and the other two were fined \$1 each and were sent to jail. Before imposing the sentence the judge sent for Sheriff Stout and asked him whether he could confine the boys without throwing them in contact with the other and older men imprisoned. Sheriff Stout said he would provide for them in the hospital ward and would keep them away from the general run of prisoners; mittimus were then issued.

OTHER CASES IN COURT.
R. Hulsebaugh was charged with public intoxication and also cruelty to animals. He pleaded not guilty to the first charge, but to the second answered that he had unintentionally overdriven a horse which he had hired yesterday at the Hostman stables. A fine of \$1 and costs was assessed and the docket was stayed.

Charles Nern, a young man identified as belonging to "the East End gang" was charged with drunkenness and he pleaded guilty. Evidence showed that he had insulted ladies on the street yesterday and after a pointed remark by the judge that the aforementioned "gang" would be broken up at all hazards, a fine of \$3 and costs was assessed and a mittimus was issued.

Walter Asher appeared in court sans coat, but with a warm growth of whiskers. He pleaded guilty to a charge of exposing his person and on his confession he was fined \$1 and costs to which the judge added twenty days in jail. From conversations had with the man by disinterested persons it has been concluded that he is mentally unbalanced. While he is serving the sentence imposed by the court his general character will be inquired into.

John Medos looked like a fair sort of a workman and his brogue was

unmistakably Irish. He was charged with train-climbing. "Yes, shure, I climbed on the train," said Medos, his face aglow with honesty, "but I didn't climb any train here in this town. I got on the train in Sheecawgo an' never got off agin until I got to yer town, sor. I got off here, shure enough, but niver a climb did I make here. I'm sorry now, mebbe, that I got off or that I didn't get back on agin."

"Could you get out of town in an hour?" asked the judge.
"Begor, I dunno—but I think that's givin' me too much time. I'd like to stay in the town and get me a good job, but if it's an hour I got to git out I kin make it—thank you, sor," and John was off.

Edward Murphy was charged with plain drunkenness. He pleaded guilty, but said he had never been arrested before. Incidentally he remarked that he had been here two weeks and had been drunk two days. He went over for eleven days.

THE KINDERGARTEN.

Then came the kindergarten. Harry Niswonger, Carl Stadler and Roy Cox, aged from 9 to 12, were arraigned on charges of stealing bicycles. Niswonger and Stadler had been up before and Cox was once charged with having abstracted some money from his mother's purse, but there was no prosecution. Two of the boys admitted to having stolen three wheels apiece and the other of having got away with only two. Niswonger and Stadler had been warned before and after a consultation with the sheriff, who agreed to provide separate quarters for them and keep them away from older prisoners, the judge said that he would send them over for eleven days each. In the case of the Cox boy the judge said he would consider the matter, but would not release him at once. He ordered him sent below until some time later in the day, when he would decide upon his case.

Martin Brown, living at the corner of Pontiac and John streets; Edward Bork, 2804 Gay street; Charles Hilker, 2608 Smith street; Herman Hoepfner, 2729 Gay street, and Adolph and August Shultz, of 2602 Gay street, were the other youngsters arrested and held for petty thieving, including bicycle raids. Their principal transgression, however, was the persistent robbery of Mrs. Rose's bakery wagon. When the boys were first arrested and let go they were told to present themselves this morning and be sure to be accompanied by one or the other of their parents. Brown and Hilker were not accompanied by any relatives and blandly told the court that their parents were too busy to come down this morning. In spite of that all were let go with a strong proviso and a strong string attached. They were told that they

must arrange a settlement with Mrs. Rose for the cakes stolen and that she must be paid. The court then again emphasized the declaration made last week and said that if the settlement called for was not promptly made they would be brought into court again and that then their parents could have the alternative of administering a public chastisement in open court, pay a fine or see the little fellows go to jail to serve the sentence which would surely come.

"I know it looks a little tough," said the judge, "but we've got to come to it. I don't want to judge anyone harshly, but I have made a personal investigation of some of the complaints, and I believe that in most cases the fault lies with the parents themselves. If it does they can find the remedy; if it don't I will have to find it. This kid nuisance is getting to be something abominable and the people who suffer from their pranks are entitled to some sort of protection and I am going to try to furnish it."

POLICE NOTES.

Officer Borgman is sick and has been off duty for several days.

Investigating boys discovered that the windows in the Franklin school building can be broken. It took four shots to demonstrate their frailty and in consequence four windows are shak on glass.

Fred Rehling, of 2403 John street, reported that his little girl had been bitten by a neighbor's dog.

SANTA MARIA IN ERUPTION VOLCANO IN GUATEMALA IS VERY ACTIVE.

Department of Quezaltenango is in Great Alarm, Though No Damage Has Been Done.

New York, Oct. 27.—Since Saturday morning the volcano of Santa Maria, in the department of Quezaltenango, northwest part of Guatemala, has been in eruption, cables the Herald correspondent at Managua, Nicaragua.

The eruption is attended with a terrifying roar and shocks are felt all over Nicaragua, Salvador and Costa Rica.

No damage has been done here, but there is great alarm.

Santa Maria has not been considered an active volcano. There are several towns and villages near it. It is only about ten miles from the recently ruined town of Quezaltenango and fifteen miles from Mezaltenango, which has about six thousand residents. The height of the volcano is 12,437 feet, or about three times as high as Mount Pelee in Martinique.

Guatemala suffered severely from earthquakes several days last April, when many towns and villages along the Cordillera were either totally or partly reduced to ruins. The towns of Quezaltenango and Amatlan, capitals respectively of the departments bearing the same names, were destroyed.

IN A ROUGH HOUSE.

On Saturday night George Kallenbacher and Fred Karber, neighbors living on John street, south of the railroad, became involved in a quarrel of uncertain origin at Herman Oertel's saloon, corner Wallace and Force streets. Karber was badly beaten and a pair of murderous looking lead "knucks," covered with blood, were found on Kallenbacher and are at the police station to be used as evidence against him. He was arrested after the affair, but subsequently gave bond for his appearance at police court this morning. Today Karber was unable to appear, being confined to his bed from the effects of the beating and the case was continued until next Tuesday morning, Kallenbacher in the meantime giving bond in the sum of \$150. During the interim things will be doing to interest Mr. Oertel, at whose boozery the fracas occurred. An affidavit has been filed against the proprietor for allowing other

than members of his family in his saloon after 11 o'clock and another affidavit has been filed against Charles Rose, his bartender, and then, to make it still more interesting, a third affidavit has been filed against Kallenbacher for carrying concealed weapons. All these cases will be called as soon as Karber is able to appear as a witness.

ABLE TO WHIP THE WORLD.

Liverpool, Oct. 27.—Vice Admiral Lord Charles Beresford arrived yesterday from New York on the steamer Urechia. In the United States Lord Beresford studied the construction of American battleships and also investigated shipping matters. As a result of his trip he thought public men ought to strive to band Britain and America more firmly together. "If Great Britain and the United States," said the admiral, "were joined in the interests of universal peace, and if the rest of the world wanted to fight these countries, then let the rest of the world look out." The admiral also said he could vouch for the genuineness of the kind sentiment entertained in America for Great Britain. His investigations on the other side convinced him that Great Britain had nothing to fear from the International Mercantile Marine company. On the contrary, he believed this combine would benefit England commercially and otherwise. "The United States," said the admiral, "are certainly ahead of us in engineering and administration and we need to adapt ourselves more to modern ideas." He did not think, however, that Great Britain was going down hill.

A MYSTERIOUS AFFAIR.

Chicago, Oct. 27.—The body of Nels Anderson, said to have been one of the best known steamship men in the country, was found today in a clump of bushes on the Washington Park golf links by a passing policeman. Considerable mystery surrounds the case as a bullet hole was discovered in the man's head, but no trace of any weapon could be found. Anderson was at one time general agent of the White Star Steamship company, was also at one time connected with the Atlantic Steamship company. His home was in Chicago.

KING REVIEWS GUARDSMEN.

London, Oct. 27.—King Edward reviewed today nearly 4,000 guardsmen who have recently returned from South Africa. The king afterwards addressed the troops, welcoming them home. He praised the work which they had done in the field, saying: "You have upheld the great name which has made everybody who has

served in it proud. I myself feel proud to have, as a young man, served in your ranks, though I regret I never had the opportunity, like my brother, of seeing active service. A finer body of men it is impossible to wish to see. It is a proud day for me to have inspected the guards' brigade." In spite of their arduous duties in South Africa, the king remarked, the men had not forgotten their drill and the march past today was as well done, if not better carried out, than ever before. The queen and other ladies of the royal family drove past in carriages. At the conclusion of the ceremony the troops gave a hearty cheer for the king.

ACCUSED OF POISONING.

London, Oct. 27.—George Chapman, who came from America in 1893, and who is now the landlord of a Southwark saloon, was arraigned at a police court today charged with having poisoned a young woman who had lived with him as his wife. It transpired that this was the third woman who had died within five years in houses owned by the prisoner and it is said the affair may develop in a manner similar to that of the celebrated Neill (Groom) poisoning case, in 1892. Thomas Neill (alias Cream), M. D., was convicted in London of the murder by strychnine of Matilda Glover, an unfortunate woman, Oct. 21, 1892, and was executed Nov. 15 of the same year. He was accused of the murder of three other women.

AT RIPE OLD AGE

MRS. ELIZABETH CADY STANTON CALLED HIGHER.

A FAMOUS LIFE IS ENDED

EARLIEST LEADER OF THE WOMAN SUFFRAGISTS.

BEGAN WORK BEFORE WAR

DEATH WAS DUE TO INFERMI- TIES OF EXTREME AGE.

New York, Oct. 27.—Mrs. Elizabeth Cady Stanton, the noted woman suffragist, died yesterday at her home in West Ninety-fourth street in this city. She was conscious almost to the last. More than a week ago Mrs. Stanton began to fail. This be-

Mrs. Elizabeth Cady Stanton.

came more noticeable during the last few days, and then it was known to the family that her death was only a question of days or hours. She succumbed to the infirmities of old age. The children with Mrs. Stanton when she died were Mrs. M. F. Lawrence and Mrs. Stanton Blatch, of New York; Henry and Robert L. of New York, lawyers; Theodore, of Paris, and G. Smith, a real estate broker at Warden Cliffe, Long Island. The funeral will be held on Wednesday. The interment will be in Woodlawn cemetery.

Elizabeth Cady Stanton came of Puitan stock, and was born Nov. 12, 1816, in Johnstown, N. Y. Her father was Judge Daniel Cady, a distinguished lawyer of the time. Her mother was Margaret Livingston. She was the daughter of James Livingston, an officer of the Revolutionary army. It was he who fired on the British ship Vulture when that vessel anchored in the Hudson river. This was at the time that Benedict Arnold was plotting treason.

ALWAYS SELF-RELIANT. As a child Elizabeth Cady Stanton, or Elizabeth Cady, as she was then, was precocious—perhaps self-reliant expresses it better. She was imbued with a desire to master Greek; and she applied to her pastor, an old Scotch clergyman, for instruction. Being of an alert mind and blessed with a good constitution, she made rapid progress in the undertaking. She then took up Latin, mathematics and other mannish studies. She had a very proficient instructor in her brother-in-law, Edward Bayard, of Delaware. From this man she learned much of poetry and art, and also of physical culture.

When Elizabeth Cady was 16 she entered Mrs. Willard's seminary at Troy. Before this she expressed a desire to go to Union college, and fuel was added to the flame in her breast when she was made aware of the discriminations against women that rendered her ineligible for admission to that famous old seat of learning.

INTERESTED IN ABOLITION. After leaving the seminary and re- turning home Mrs. Stanton was thrown in contact with her cousin, Gerritt Smith, the eloquent abolition- ist. She became greatly interested

in this movement also, and was fore- bly struck with the similarity of the conditions which oppressed white women and the slaves of the south. It was at the house of the abolitionist that Mrs. Stanton met the man who became her husband. Her marriage took place in 1840. They went abroad on their wedding trip, and attended the anti-slavery convention in Eng- land. A great many women had come on to attend the convention, but they were not allowed to take their seats as delegates.

SPEAKS BEFORE LEGISLATURE. Mr. and Mrs. Stanton came back to America, and then followed one of the most interesting episodes of her life. After her return she had, in company with others interested in female suffrage, been agitating the matter throughout the state. She received permission from the legisla- ture for a hearing on the subject of the married woman's property bill. Her father heard that she was going to address the legislature, and was incensed thereat, but she pleaded her

HIGH SCHOOL DEFEATED.

The high school team was defeated at Warsaw Saturday by the close score of 12 to 10, losing out on account of inability to kick goal. The team was composed mostly of substitutes and the line-up was consid- erably changed, so that the showing made by the boys was good. In the first-half Warsaw started to play a hurricane game and scored two touch- downs, but in the second the Fort Wayne boys took a brace and played a good game, making two touch- downs, but failed to kick goal. The next game will be with the Goshen high school team.

Four of the Wolf team were unable to play Saturday and consequently the game at Wabash with the Wa- bash A. A. team was declared off. Next Saturday the Van Wert, Ohio, team will play here.

The office force of the Pennsylvania company has organized a team and is endeavoring to get a game with the Huntington business college team.

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, fol- lowed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and oftenest attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigor- ating effects the general health improves, and the skin becomes soft and smooth again.

I. MARKETS.

Chicago, Oct. 27.—Large world's shipments, liberal receipts in the northwest and lower cables all combined to cause a weaker tone to the wheat market at the opening today. The local crowd was inclined to the bear side and offered freely, while the buying was scattered. The volume of trade early was light and prices held about steady. December opened unchanged to $\frac{1}{8}$ ¢ lower at $72\frac{1}{4}$ ¢ to $72\frac{1}{2}$ ¢, sold down to $72\frac{1}{2}$ ¢, but on the decline shorts were fair buyers and the price rallied to $72\frac{1}{2}$ ¢ to $72\frac{3}{4}$ ¢. Minneapolis and Duluth reported receipts of 1,212 cars, which, with local receipts of 193 cars—3 of contract grade—made total receipts for the three points of 1,405 cars, against 1,400 cars last week and 1,023 cars a year ago.

A good export demand caused a firm feeling the latter part of the session and December sold up to $72\frac{3}{4}$ ¢, but declined again to $72\frac{1}{2}$ ¢. The close was $\frac{1}{8}$ ¢ higher at $72\frac{3}{4}$ ¢.

Corn opened weaker on continued fine weather for the movement and larger local receipts than estimated. Trade was small, local longs were disposed to unload and there was some liquidation of both December and May holdings. December opened $\frac{1}{8}$ ¢ to $\frac{1}{4}$ ¢ lower at $51\frac{1}{2}$ ¢ to $51\frac{3}{4}$ ¢, selling down early to $51\frac{1}{4}$ ¢. Local receipts were 282 cars, with 48 of contract grade.

The close was easy, December $\frac{1}{4}$ ¢ lower at $51\frac{1}{4}$ ¢ to $51\frac{3}{4}$ ¢. Oats opened slightly lower in sympathy with lower prices in other grains and trading was a continuation of that manifested during the past few days, there being no special feature to the market. December opened $\frac{1}{8}$ ¢ to $\frac{1}{4}$ ¢ lower at $31\frac{1}{2}$ ¢ to $31\frac{3}{4}$ ¢ and early sales ranged within a narrow limit. Local receipts were 601 cars.

Provisions opened lower on heavy receipts of hogs at the yards, which resulted in lower prices. There was some selling by commission houses of pork, but offerings were readily taken by local shorts and the early loss was largely regained. January pork opened $\frac{1}{4}$ ¢ lower at $15\frac{1}{2}$ ¢; January lard was $\frac{1}{4}$ ¢ lower at $89\frac{1}{2}$ ¢; and ribs were $\frac{1}{4}$ ¢ lower at $88\frac{1}{2}$ ¢.

THE CLOSE.

Prices at the close were as follows: Wheat—Dec., $72\frac{1}{4}$ ¢; May, $74\frac{1}{4}$ ¢ to $74\frac{3}{4}$ ¢. Corn—Oct., $57\frac{1}{4}$ ¢; Nov., $55\frac{1}{4}$ ¢; Dec., $51\frac{1}{4}$ ¢ to $51\frac{3}{4}$ ¢; May, $43\frac{1}{4}$ ¢ to $43\frac{3}{4}$ ¢; July, $42\frac{1}{4}$ ¢. Cattle—Oct., $30\frac{1}{2}$ ¢; old, $28\frac{1}{2}$ ¢; Dec., $31\frac{1}{2}$ ¢ to $31\frac{3}{4}$ ¢; old, $28\frac{1}{2}$ ¢; May, $32\frac{1}{2}$ ¢ to $32\frac{3}{4}$ ¢. Pork—Oct., $15\frac{1}{2}$ ¢; Jan., $15\frac{1}{2}$ ¢ to $15\frac{3}{4}$ ¢; May, $14\frac{1}{2}$ ¢. Lard—Oct., $89\frac{1}{2}$ ¢; Nov., $10\frac{1}{2}$ ¢; Dec., $10\frac{1}{2}$ ¢; Jan., $92\frac{1}{2}$ ¢; May, $88\frac{1}{2}$ ¢. Ribs—Oct., $12\frac{1}{2}$ ¢; Jan., $88\frac{1}{2}$ ¢ to $88\frac{3}{4}$ ¢; May, $87\frac{1}{2}$ ¢. Flax—Cash N. W., $1\frac{1}{2}$ ¢; S. W., $1\frac{1}{4}$ ¢; Oct., $1\frac{1}{4}$ ¢; May, $1\frac{1}{2}$ ¢. Rye—Dec., $50\frac{1}{2}$ ¢; May, $52\frac{1}{2}$ ¢. Barley—Cash, $35\frac{1}{2}$ ¢ to $35\frac{3}{4}$ ¢. Timothy—Oct., $4\frac{1}{2}$ ¢ to $4\frac{3}{4}$ ¢; Jan., $4\frac{1}{2}$ ¢ to $4\frac{3}{4}$ ¢. Clover—Oct., $11\frac{1}{2}$ ¢.

THE DAY ON WALL STREET.

New York, Oct. 27.—Lower prices were reported for American securities in London and the local market also opened under pressure in sympathy. Saturday's realizing sales were continued in the coalers and leading railroads, but the losses were limited to small fractions. Colorado Fuel was the only feature and advanced $\frac{1}{2}$ ¢ on a few transactions. Prices declined abruptly and dealings were in larger volume than for some time. All the leading stocks were affected and the pressure was quite general, but if anything more pronounced in the western and soft coal stocks. Losses ran from $\frac{1}{2}$ ¢ to $\frac{1}{4}$ ¢ and included practically every stock of importance on the list. Prices steadied.

There was some recovery, but the movement was hesitating and business was very small on the rebound. Reports of labor dissatisfaction in the west and the uncertain local monetary conditions encouraged bear selling and liquidation of long stock by fired holders. Toward mid-day St. Paul was sold anew and dropped $\frac{1}{2}$ ¢ to $189\frac{1}{2}$ ¢, causing a setback all around. Atchison and the Pacific declined to the lowest, but the general selling was not so large as during the early decline. Bonds were easier at noon.

The idea of forming a new county out of townships taken from Howard, Carroll and Clinton counties has been abandoned. It was found that the change would reduce the area of Carroll and Howard counties to a point less than $\frac{1}{4}$ of a law allows. The new county would have an area of 180 square miles, while the law provides for 200 square miles. The new county was to be called Forest, and Burlington was to be the county seat.

Rich People go to Hot Springs. Poor People go to Hot Springs. And Have Special Treatment, But Still Have Their Rheumatism.

We poor people feel sorry for the rich, but you can't get something better than what we have. It's a high-toned, to spend small fortunes, and a luxury to be sick. It's improper to be cured at a dollar a bottle, although we have many rich clients, who are sensible and wouldn't be without. Athlophros was originated for a rich man by one of the most famous physicians. It gets at the acid and dispels it. When that is done the rheumatism is gone. It works every time.

The Uric acid clogs and poisons the blood, disables the body more or less. Athlophros is a soothing as "oil to a burn," and especially in acute attacks will allow the body to get back to work. It saves lots of needless suffering, and makes life worth living. All druggists sell it, or The Athlophros Co., New Haven, Conn., will send a bottle for one dollar. It is within the reach of everyone, and makes health possible to all.

FIREMEN HOLD A MEETING

TAKE IN SOME NEW MEMBERS FROM MUNCIE.

Cleveland, Ohio, Oct. 27.—P. S. Blodgett, general manager of the Lake Shore railway, died today at his residence, No. 36 Vienna street, this city, after a long illness. Mr. Blodgett was 59 years of age and was widely known in the railway world. He began his railroad career as a clerk at Adrian, Mich., with the Michigan Southern and Northern Indiana line, which afterwards became a part of the Lake Shore system. He was soon promoted and transferred to Elkhart, Ind. Subsequently he was made superintendent of the Detroit division of that road, which position he filled for about five years. The next move was to Chicago, where he was made freight agent for the Lake Shore. He remained there for nearly ten years. In 1890 Mr. Blodgett was advanced to superintendent of the eastern division of the Lake Shore, with headquarters at Cleveland. In May, 1896, he secured the office of general superintendent. He remained in this position until June, 1901, when he accepted the general superintendency of the New York Central. Here he was the head of the large operating department for a little less than a year, when he was made general manager of the Lake Shore. Dropsy was the direct cause of Mr. Blodgett's death.

Situation Unchanged.

Up to 2:30 o'clock today President Ramsey's statement concerning the wage scale at the shops had not arrived and the situation, from an outside view, is but little changed from that of Saturday. John J. Cleary and F. C. Nohrwald, who represent the Fort Wayne boilermakers on the wage committee, left Saturday night for Springfield, where they were called by the general committee representing the entire system. N. J. Murphy, who serves the Fort Wayne machinists in a similar capacity, has been in Springfield several days and a letter from him today stated that a meeting of the committee with J. B. Barnes, superintendent of motive power, had been arranged for this morning. James Conroy, a blacksmith, who went to Springfield Saturday morning, presumably to lay a petition for increase in wages before Mr. Barnes, returned yesterday. Mr. Conroy had nothing to say for publication and whether his mission was successful or otherwise remains for the future to develop. The petition for an increase in wages by the blacksmith department was not generally known outside of that shop. Messrs. Murphy, Cleary and Nohrwald are expected home this evening.

Will Be Finest in City.

Plans for the lavatory to be erected where the old boiler plate shed was, between the Pennsylvania machine shop and boiler shop, have gone into the hands of the men having charge of the work of building and equipping it. The lavatory will have basins to accommodate over 200 people at once and will be the best in the city of its kind. The entrance gate to the shops at the end of the lavatory will be a highly ornamental iron affair, which will add to the appearance of the walls from an outside view.

Looking Over New Road.

Motive Power Superintendent D. F. Crawford, Chief Car Inspector W. W. Todd and Chief Clerk F. D. Reed have gone to Columbus, Ohio, to examine into the physical condition of the Columbus, Sandusky and Hocking railroad, which is soon to become a portion of the Northeastern system of the Pennsylvania company lines west of Pittsburgh.

New Cars for the Pennsylvania.

Five combination cars for the Pennsylvania company were turned out of the Pullman works this morning. Two of these cars have eleven feet at

one end for baggage and the balance of the space is equipped for passengers. They will go into suburban service out of Allegheny. The other three cars have thirty-five foot baggage rooms and equal space for passengers. They will become a part of trains 24 and 25, running through this city. These cars are wide vestibuled, equipped for electric lighting and are up to date in every particular.

Held a Special Session.

A. G. Porter lodge, No. 141, Brotherhood of Locomotive Firemen, held a special meeting yesterday afternoon to transact some business that could not be transacted at the meeting tonight. M. Dick and F. T. Bundy, of Muncie, were taken into full membership at this meeting. Muncie has no lodge of the B. of L. F. and a number of the firemen who make that city their home are members of the A. G. Porter lodge. Messrs. Dick and Bundy are employed on the Lake Erie and Western road. The meeting yesterday was held in the hall of the Brotherhood of Railway Trainmen.

State R. R. Y. M. C. A.

At the meeting of the State association of the Y. M. C. A. at Peru November 20 to 23, inclusive, C. H. Newton, of Cleveland and a former citizen of Fort Wayne, will inaugurate the movement for an Indiana branch of the Railway Y. M. C. A. In the state meetings that department has been associated with the regular Y. M. C. A., but it is believed that the interests of the railway men could be better served were the two separated. Mr. Newton has held a responsible position in the state association ever since the first meeting and he is still interested in the work.

New Names on Pay Rolls.

Among the persons who took employment at the Fort Wayne Electric works this morning are the Misses M. B. Sauerwein and Mamie Hartnett. Edgar Kretzinger, Arthur Kynaston and Arthur Sahli. The latter arrived in the city a week ago from Switzerland. Edgar Kretzinger is a son of John R. Kretzinger, foreman of the Pittsburgh planing mills. At the east car shops Frank Neher, L. B. Hilder, Frank Grinn, O. E. Shroyer and J. R. O'Leary took positions this morning.

Brakeman Gebfert Home.

Christian Gebfert, the Pennsylvania brakeman who had both legs cut off at Clark Junction September 4, was brought to this city on train No. 8 Saturday evening and he is now at his home on Wilt street. Mr. Gebfert's recovery surprises the surgeons and hospital attendants who had charge of him during his stay in the hospital at Chicago. A strong constitution and temperate habits did much to save the brakeman's life.

Cassatt Starts on Trip.

President Cassatt and the board of directors of the Pennsylvania railroad, left Philadelphia today in a special train on their annual tour of inspection. The trip will extend as far west as Cleveland and from that point the party will proceed to Buffalo via the Lake Shore road, returning to Philadelphia Friday afternoon.

Off on Pleasure Trip.

The Wabash did a fairly good business in the way of sending pleasure seekers out of the city last night. John Trautman, Fred and Joseph Yeager and Charles Lahrman, of this city, and three men from Huntington, composed a hunting party which left for the wilds of Maine, to be gone two weeks. There were eleven excursionists bound for the Pacific coast country on No. 9 when that train pulled out for the west this morning.

The Excursions.

The only two incoming excursions yesterday were over the Cincinnati, Hamilton and Dayton and the Lake

To promote economy in the consumption of coal the officials of the Chicago and Alton have determined to reward engineers by a system of premiums. Those that use less than the usual allowance of fuel for a run will be paid one half the value of coal not consumed.

A double line of men two squares long were in the procession at the funeral of the late Charles W. Habachur yesterday afternoon. In the line were A. O. U. W., Ben Hur and Pennsylvania Social club members. The funeral was largely attended also by shopmen and other friends of the deceased. Messrs. and Mesdames. N. W. Thompson and D. C. Zook have returned from Minneapolis, where the gentlemen attended the annual meeting of the Association of Bridge Superintendents and mentioned previously in these columns. Mr. Zook is master carpenter of the Pittsburgh.

The report that John F. Miller, vice president of the Cleveland, Akron and Columbus, is building a fine residence at Columbus, Ohio, and will remove from Richmond, Ind., to Columbus, is not correct. Mr. Miller is building some fine houses in Columbus, but has no intention of removing from his Richmond home of many years.

Foreman George A. Szink, of the Pittsburgh blacksmith shop, hired four helpers Saturday. He will put other men at work as soon as the applicants have undergone the necessary physical examination. The men hired Saturday are H. D. Thompson, William F. Bockelman, Frank Spangler and Con rad Tielker. The latter formerly worked at the Wabash shops.

MOTOR CYCLIST KILLED.

New York, Oct. 27.—Frank E. Elwell, of Brooklyn, an international authority on motor cycling and a frequent contributor to the magazines devoted to this sport, has been killed near Hicksville, L. I., while participating in a club run. The head stem of his machine broke as he was speeding along at a fast clip and he was hurled to the ground with such force that his neck was broken. Elwell had traveled through Europe, Asia and northern Africa on the machine that caused his death.

There were seventy-two cyclists in the party. Elwell was the last man in the string. As the party neared Hicksville he put on full power in order to catch up with the others and while crossing the railroad tracks his machine suddenly fell apart. When a physician reached him he was dead.

CHOLERA AND PLAGUE SWEEP THE FAR EAST.

THE PHILIPPINES SUFFER OF 75,000 CASES 75 PER CENT. ARE FATAL.

DEATH STALKS IN CHINA APPALLING REPORTS ARE RECEIVED IN WASHINGTON.

Washington, Oct. 28.—The fearful ravages of plague and cholera in the old world are set forth in mail advices received by the marine hospital service.

From Manila Chief Quarantine Officer Perry makes a conservative estimate that the cases of cholera that have actually occurred in the Philippine islands since March 20 last, aggregate 75,000, with a mortality of 75 per cent. He says under date of September 19, that the disease has practically disappeared from those provinces first infected, but those most recently infected are suffering severely. The province of Iloilo and the adjacent island of Negros are badly infected and the situation is alarming. Some of the towns in these provinces have lost 10 per cent. of their population and the epidemic continues severe. In Japan the latest advices show that there have been 4,329 cases and 1,650 deaths from cholera.

SITUATION IN CHINA.
The cholera situation in China is summed up as follows: Provinces of Hunan and Shansi, the cities report as follows: Nanking, epidemic, 40,000 deaths; Foochow, epidemic; Shouyanghsien, epidemic, 3,000 cases per day; Hsinchou, epidemic; Taiyuan, epidemic; Hsiaoientze, epidemic; Shouyang, epidemic; Shihlioh, epidemic; Changlohen, epidemic; Kinkiang, reported; Nan Changfu, reported; Shouyang, reported; Hankow, reported; Tien Tsai, reported; Soochow, reported.

In Hongkong since the beginning of the outbreak there have been 459 cases and 396 deaths. Notwithstanding this, local authorities declare the colony free from plague infection.

EGYPT IS RAVAGED.
According to a report of the director general of the Egyptian department of health, the cholera epidemic continues to claim a large number of victims. The number of infected places increased to 1,537. The number of cases registered during the week ended September 15 amounted to 9,467, with 8,278 deaths.

Of the 28,520 cases of cholera registered between July 15 and August 15, 23,648 were fatal. During the four days from September 15 to September 19 there were registered 4,048 cases and 3,761 deaths. In Suze, between September 15 and September 19, 29 fresh cases were registered. In Damietta the daily number of cases recorded is said to be 30. Karnak and Luxor are also infected with the disease.

In Alexandria during the week ended September 15, 64 cases of cholera occurred among Europeans, with 41 deaths, and during the following five days, 35 cases and 25 deaths were recorded.

BOY DIES IN TERRIBLE AGONY

ATE POISONED SAUSAGE PREPARED FOR RATS.

Lad Found Poisoned Meat Under the Porch, Where It Was Believed Out of Reach.

After lingering several hours and suffering the most terrible agony, three-year-old Arthur Wagner, son of Mr. and Mrs. Henry E. Wagner, of Sutherland and Warsaw streets, died at 8 o'clock last evening from having eaten a piece of sausage covered with arsenic paste, which had been prepared for the purpose of killing rats.

Yesterday afternoon the boy's grandmother prepared the poisoned meat and placed it in a dish underneath the porch, where she thought he would be least likely to find it. The boy was playing about the yard with a dog during the afternoon, when the animal crawled under the porch and the lad followed it. He found the meat and gave a little of it to the dog, eating the greater part of it himself. A few minutes afterward the boy began to suffer violent

physicians were summoned, but they found that the poison had become thoroughly absorbed into the child's system, and although everything possible was done to save him he died at 8 o'clock in the greatest agony. The child's father is an engineer on the Pennsylvania road and was out on his trip when the boy died. He was summoned from Sandusky, Ohio, by telegraph and arrived home at an early hour this morning. The family is almost prostrated over the tragic occurrence and the condition of the child's grandmother is quite serious.

BUCKETSHOPS ARE HARD HIT
FEDERAL COURT OF APPEALS DELIVERS THE BLOW.

Western Union Has Property Rights in Its News and Board of Trade Cannot Control Quotations.

Chicago, Oct. 28.—An important principle of law was established today when Judges Jenkins, Grosscup, Baker and Burrin, of the United States court of appeals, handed down an opinion to the effect that the Western Union Telegraph company has a right of property in the news which it gathers and that such right does not cease when the news is published on the tickers rented to its patrons. In laying down this new principle, the court of appeals affirms two decisions of the lower court and forever enjoins the National Telegraph News company, the Illinois Commission company and other defendants from using the quotations in question. The court of appeals also today affirmed the decision of the district court that the Chicago board of trade can control its quotations and that no one has the right to use them without complying with the regulations of the board regarding their distribution.

GIRL HAS GONE HOME.

Mabel Laws, the young girl from Arcade, Ohio, who was abandoned at the Miller home, near New Haven, by her lover, Sam Folk, several days ago, has returned to her home in company with her father, Jacob M. Laws. Meanwhile, nothing has been heard of the recalcitrant lover, whose whereabouts are involved in mystery unfathomable even to clairvoyancy. L. F. Folk, the delinquent lover's brother, while in Fort Wayne the other day, consulted a clairvoyant in the hope of having his brother's hiding place revealed. The seer told him she could see him going into a grocery store somewhere and then he disappeared. Later he was seen in a dark room, but very indistinctly, as of course. Whether the grocery and dark room were located in Manitoba or Oklahoma or some other where, the seer for light did not learn. Meanwhile Sam Folk is wanted powerfully bad in the little Ohio town where glad welcome and free pardon await him.

BISHOPS CONSECRATED.

St. Paul, Minn., Oct. 28.—The consecration of Bishops Stepha and Keane at St. Paul cathedral this morning was celebrated in the presence of a large assemblage. The attendance taxed the capacity of the edifice. Fully 400 of those present were ecclesiastics of note who had come from all parts of the country. Right Rev. John Starha, of St. Paul, was consecrated bishop of Lead, S. D., and Rt. Rev. James J. Keane, of Minneapolis, as bishop of Wyoming. Archbishop Ireland began the ceremonies with the celebration of mass, in which he was assisted by Rev. John J. Lawler, rector of the cathedral parish and Bishops McGuckick, Shanley and Trobec. Bishop O'Grady preached the sermon. The visiting clergy and bishops were given a dinner this afternoon by the bishops and clergy of the province of St. Paul.

AN AUTO RUNAWAY.

The speed blutch on Dr. L. E. Drayer's automobile became jammed while the doctor was riding along Creighton avenue yesterday and the machine became uncontrollable. The emergency brake refused to work and a smash-up seemed inevitable, but Dr. Drayer succeeded in shutting off the gasoline from the engine and the machine came to a standstill from lack of power.

BEGINS AT ONCE

WORK OF SECURING NEW INTERURBAN RIGHT-OF-WAY.

FORT WAYNE TO BLUFFTON NEW COMPANY MET IN FORT WAYNE THIS MORNING.

ITS OFFICERS ARE ELECTED ROAD MAY ENTER OVER SOUTH-WESTERN TRACKS.

The Fort Wayne, Bluffton and Richmond Traction company fully perfected its organization in this city today at a meeting held at the law offices of Olds & Doughman, when officers were elected as follows: President—F. K. Schaeffer, of Dayton, Ohio. Vice President—William F. Dinnen, of Fort Wayne. Secretary—Charles L. Dyrst, of Dayton, Ohio. Treasurer—Edward Maanier, of Versailles, Ohio. These gentlemen, together with Charles F. Manning, of Dayton, constitute the board of directors of the new company.

BEGIN WORK AT ONCE.

At the meeting this morning arrangements were made to at once issue the capital stock of the company, which was incorporated yesterday at Indianapolis, to subscribers, and the directors voted to take up the work of preparation for actual construction of the line without loss of time. B. L. Casto, of Dayton, will be the right-of-way agent, and he will be assisted by Alfred Schaeffer, a son of the president of the company. Mr. Casto and Mr. Schaeffer remain in the city to begin the work. Other members of the company return today to their homes in Ohio.

The company is to make its first move in securing private right-of-way between Fort Wayne and Bluffton, and this means that building operations are to begin at this end of the proposed line. Promoters of the company have visited Ossian, Bluffton, Camden, Portland and other towns which are on the proposed line, and have received unqualified encouragement in every instance. They state that the company will demonstrate that it means business from the first, and that their purpose is to get the road in operation at the earliest possible time.

MAY USE SOUTHWESTERN.

A private right-of-way is to be secured through the country districts, and as soon as this is acquired the company will file applications for entrance franchises in the various cities which it desires to reach. While the matter is not yet fully decided it is regarded as entirely probable that the new road will use the tracks of the Southwestern line for the greater part of the distance it traverses inside the city of Fort Wayne. South of Bluffton it is the purpose of the new company to utilize the right-of-way of an old steam railroad company, organized many years ago, which completed several miles of grading and then abandoned the project.

WILL GIVE PEDRO PARTY.

A BOY'S FRIGHTFUL DEATH.

LITTLE LAD GOT TOO CLOSE TO A CHAINED BEAR.

Enraged Beast Seized the Boy and in a Moment Crushed His Skull in Powerful Jaws.

Hot Springs, Ark., Oct. 28.—At Happy Hollow, a resort near here which, among other attractions, includes a Zoo, a black bear fatally injured Robert Tatum, an 8-year-old boy. The lad was passing the animal which was chained, but came too close, and before the horrified spectators could interfere the brute had the boy hugged to his breast. Then the animal closed his great jaws on his prisoner's head. A keeper pried the bear's mouth open and released the boy, but he was unconscious and dying from several fractures of the skull.

BOTH BADLY HURT.

Both George Snyder and Percy Walker, of Springfield township, who were badly injured in a runaway on East Wayne street Monday afternoon as detailed in The Sentinel last evening, sustained injuries which will confine them to their beds for many weeks. Mr. Snyder who is 24 years of age, sustained a compound fracture of the left leg just above the ankle and numerous other bruises about the body. He was removed to St. Joseph's hospital, where physicians are making an effort to save the limb. Percy Walker, the other unfortunate, is 37 years of age. His right shoulder was dislocated and both ankles were painfully crushed. He is yet at the home of his sister, Mrs. Gerry Graybrook, 2028 East Washington street. Dr. Gröndwald, Dr. McCausland and Dr. McCoscar attended the injured men, both of whom reside in Springfield township. The horses became frightened when the neckyoke slipped off the tongue of the wagon.

GRANTED A PATENT.

Jesse F. Young, of this city, was today granted a patent upon a soldering compound. Mr. Young is a jeweler in the employ of J. L. Stewart, and his attorney is W. G. Burns.

A child in the family of Charles Straub, 812 Greeley street, is very ill from typhoid fever. The little one is under the care of Dr. W. D. Hubert.

WAS VERY SUDDEN

DEATH OF GEORGE L. WEINGART OF KENDALLVILLE.

CAUSE IS AS YET UNKNOWN EXPIRED AT HIS ROOM, 335 WEST JEFFERSON STREET.

SEIZED WITH CONVULSIONS YOUNG MAN A STUDENT AT BUSINESS COLLEGE.

George L. Weingart, of Kendallville, twenty-six years of age and a student at the International Business college, died very suddenly at 8:30 o'clock this morning in his room at the residence of E. M. Stealey, 335 West Jefferson street.

While apparently in the best of health the young man was seized with a violent convulsion; respiration ceased soon after. Physicians who were summoned labored promptly and vigorously, but were unable to restore the patient, and death ensued an hour later. The post mortem examination held today at the Feltier undertaking rooms by Dr. B. Von Sweringer, at the direction of Coroner Barnett, failed utterly to disclose the cause for the young man's death. Dr. A. H. Macbeth will now make an analytical and microscopical examination of the contents of the stomach. It is the opinion of the physicians, in view of the post mortem finding, that some cause for the death will be located in the stomach.

Weingart was formerly in the employ of the McCray Refrigerator company at Kendallville and came to Fort Wayne in September to enter the business college to more fully equip himself for the duties of his position. Rooming with him at 335 West Jefferson street were Ervin Delbele and Roy E. Davis, also of Kendallville. Weingart had spent Sunday with friends at Kendallville, returning to this city at noon yesterday. He did not attend college in the afternoon and before retiring last evening was seen to swallow a white powder, presumed to be the last of some medicine he had procured at Kendallville.

ABOVE AS USUAL.

Weingart was called this morning shortly before 7 o'clock. He dressed quickly and in company with Delbele and Davis went to a residence a short distance away, where the young men were taking their meals. The trio returned to the room at 7:30 o'clock. Weingart had not spoken of being ill and had eaten his breakfast as usual, but soon after reaching his room complained of a violent pain in his chest and asked his companions to get him some whisky. They did so and a small quantity of whisky and hot water was given the suffering young man by Mrs. Sealey.

At the same time Dr. B. Von Sweringer was summoned and when he arrived he found Weingart apparently suffering from a violent convulsion. Respiration was very irregular and articulation was faint. Within a short time respiration ceased and the physician quickly injected heart stimulants hypodermically and resorted to artificial means to restore respiration. The effort was fruitless and Weingart died within an hour from the time he first complained of the pain in his chest.

Coroner Barnett was summoned and the body was removed to the Feltier undertaking rooms, where a post mortem examination was held. The heart was found slightly enlarged, but no derangement of any of the organs sufficient to have caused the death of the man was discovered. Then the coroner directed a careful analysis of the stomach and its contents. This will be made by Dr. Macbeth and may require several days.

SCOUT SUICIDE THEORY.

Both Delbele and Davis, who were companions of the young man, scout the suspicion that Weingart committed suicide and insist that he was not of the temperament to end his own life. It is said he had been cheerful and that there was nothing in his manner to indicate either a depression of spirits or physical illness. Some days ago, however, Weingart is said to have remarked to Davis that he would not live long, though no importance was attached to the statement.

Weingart was unmarried and during the Spanish-American war was a member of company I, 187th Indiana regiment. This was Captain Dennison's Waterloo company. His father is dead. The mother resides at Kendallville and Weingart was the youngest of eleven children. All the others are now at the age of 25 years.

The Dooley Letters
See Next Saturday's SENTINEL.

No well-informed newspaper reader needs to be told of the wonderful popularity of the DOOLEY LETTERS by F. P. Dooley. It is strictly true that no other writer for the press was ever so popular. "Mr. Dooley's" witty sayings are as current in Europe as in America. The opinions of no public character, statesman or politician are so eagerly awaited as those of "Mr. Dooley," and the opinions of every public character, statesman and politician are discounted by his droll comment. The Sage of Ar-rohey Road addresses a larger audience than any other living writer, and his humor grows ever more mellow, his philosophy more kindly and touched with a ripper wisdom. Mr. Dooley will begin next Saturday to address his philosophy to readers of THE FORT WAYNE SENTINEL. This newspaper has secured exclusive right to print the Dooley letters in Fort Wayne.

CHRISTIAN KRUSE WILL BE ASKED TO PROSECUTE.

Uninvited Guests Make Trouble at a Small House Party—General News of Courts.

Deputy Sheriff Huguenard went out to the residence of Christian Kruse, just east of the city, on the Maysville road, this afternoon, to inquire whether Mr. Kruse would appear as a witness against two men who assaulted him in his own dooryard last night. The facts appear to be simply that two Port Wayne men called at the Kruse wedding and insisted on intruding upon a party which was in progress. Being refused, they asked for a glass of wine, which was served by Mrs. Kruse. The men again insisted upon becoming members of the little house party and on a repeated refusal one of them struck Mr. Kruse in the face. The officers know the names of the two uninvited guests, but decline to give them publicly unless Mr. Kruse will consent to file the affidavits.

WILL MARRY AT TOLEDO.

John M. Riedmiller, a member of the Centlivre Brewing company, is in Toledo, preparing for his marriage to Miss Louise Fisher, of that city, which will occur on Thursday. Since the death of his father, ex-Councilman J. M. Riedmiller, which occurred many years ago, the present John M. has lived with his mother, Mrs. Catherine Riedmiller, on the old homestead, and his filial devotion led most of his friends to believe that bachelorism with him was certainly incurable. It remained for Miss Fisher, daughter of Professor Fisher, teacher of German in the Toledo high schools, to disillusionize Mr. Ried-

miller's friends. After a brief Mr. and Mrs. Riedmiller will take their permanent residence in city.

PRESIDENT'S COMMISSION IS READY FOR WORK.

MEETING IN WASHINGTON

OPERATORS AND LEADERS OF MINERS PRESENT.

OBJECTION TO MITCHELL

BAER CAPTIOUS AS RECOGNIZING UNION.

Washington, Oct. 27.—The anthracite coal strike commission met at 2 o'clock this afternoon in the hearing room of the inter-state commerce commission. All the members of the commission were present, occupying seats upon the bench.

Mr. Mitchell, president of the United Mine Workers, and District President Fahy appeared for the miners.

The coal carrying roads were represented as follows: President Baer, of the Philadelphia and Reading; E. B. Thomas, chairman of the board of the Pennsylvania Coal company and

Hillsdale Coal and Iron company; Alfred Walter, president of the Lehigh Valley; W. H. Truesdale, president of the Delaware, Lackawanna and Western; David Wilcox, vice president of the Delaware and Hudson; John B. Kerr, vice president of the Scranton Coal company and El-kill Coal and Iron company; J. H. Terry, attorney for the Delaware and Hudson, and Francis J. Gowan, attorney for the Lehigh Valley company.

COMMISSION PHOTOGRAPHED.

Before opening the proceedings the members of the commission and the representatives of the contesting parties were photographed. Judge Gray, the president of the commission, then read the order of the president creating the commission and in a general way outlined the procedure to be followed in the presentation of the issues. He stated that in accordance with the immemorial practice among English-speaking peoples the commission would first receive the statements or demands of the miners, who were to be regarded for the purposes of this case as the prosecutors. The reply of the other side would then be heard, Judge Gray said, in order that the commission might have before it a definite issue. At the conclusion of Judge Gray's remarks President Mitchell stated that he had with him the formal demands made by the miners upon the operators and at the suggestion of Judge Gray he read the statement of the miners' demands adopted by the Shamokin convention, the rejection of which resulted in the strike.

Walter Edward Weyl was also present as a representative of the miners. The hearing room was crowded with the people interested in the case and with spectators.

OBJECTION TO MITCHELL.

President Baer objected to the appearance of Mr. Mitchell as a representative of the United Mine Workers of America, but said he had no objection to offer against Mr. Mitchell's appearance as a representative of the anthracite coal miners generally. Mr. Baer's object was to avoid the recognition of the mine workers' union as an order. Mr. Mitchell replied that the objections raised as to his status were not involved in the case. He said that he appeared as a representative of the anthracite coal miners and distinctly retained in his reply from mentioning the union.

Presidents Baer and Thomas suggested to the commission that it proceed at once to the coal fields in order that it might be informed at the outset as to conditions there.

STATEMENT TO BE FILED.

It was agreed that Mr. Mitchell should file with the commission next Monday a detailed statement of the claims of the miners. The statement he read today was a preliminary statement of the case. The representatives of the operators announced that they would file an answer to the statement to be filed by Mr. Mitchell on Monday within three days of that time. It was suggested that each side to the controversy appoint an expert to go through the books of the coal companies for the purpose of securing data upon which to work, but President Baer and other representatives of the companies immediately objected and suggested that they could furnish whatever information is needed. This question precipitated a long discussion in which the coal president and the miners' representatives took part.

The commission decided to begin its investigation into the conditions in the anthracite coal regions Thursday of this week, commencing with district No. 1, in which Scranton is located.

MORE MINES IN OPERATION.

Wilkesbarre, Pa., Oct. 27.—There are more mines in operation in the anthracite region today than at any time since May 12 last, when the strike began. The Lehigh region continues to be the barren spot. The employees of Pardee & Co. and Cox Bros. are still idle. The Lehigh and Wilkesbarre Coal Co. started up its collieries in the Lehigh region today. Ninety-five per cent of the mines in the Wyoming and Lackawanna region are now in operation and there will be a large increase in the output today. The output at the collieries of the Delaware, Lackawanna and Western company and the Delaware and Hudson Co. will be especially heavy. In some of the mines there are many difficulties to be overcome. Falls are of frequent occurrence and this retards mining.

OPERATIONS RESUMED.

Hazleton, Pa., Oct. 27.—Operations were resumed today at seven additional mines.

(Continued on Second Page.)

HAS SOME BAD KNIFE CUTS

CONDUCTOR LOGAN IS BADLY INJURED.

Says He Was Assaulted by Unknown Men as He Was Returning Home From Run.

John C. Logan, of Poplar street, a conductor on the Grand Rapids road, appeared at his home about 10 o'clock last evening in a much used-up condition. He was greatly dazed and was suffering from two severe knife wounds. He said that he was assaulted in a dark place near the Hoagland school building as he was returning home after coming in from a trip on the road.

The police were called, but from Mr. Logan's account of the matter they could get no clue upon which to work. This afternoon the police department said it had possession of no new information and nothing was being done on the case.

MR. LOGAN'S ACCOUNT.

Mr. Logan stated today that he came in off his run shortly before 8 o'clock last evening, and after making his report, started for home. He walked south on Webster street to the alley between Butler and Williams streets, into which he turned in order to take a short cut out across the vacant lots just east of the Hoagland school. It was very dark at the entrance to the alley, but as he turned in Mr. Logan saw three men, one of whom made a rush at him. Mr. Logan struck at the man, but the latter dodged and slashed at him twice with a knife. The blade made a cut about nine inches long in the coat on the left side and a smaller one on the right.

The other two men then joined in the melee and one of them struck Mr. Logan a terrific blow on the side of the head, evidently with a club. Mr. Logan was rendered unconscious and believes he lay in the alley for some time. He reached home in a dazed condition and for a time was unable to give a coherent account of the affair. He did not recognize any of the men and would not be able to identify them.

Dr. Enslin was called to attend Mr. Logan and found that he had sustained two deep flesh wounds on his right and left sides just below the ribs. The gash on the left side was about six inches long and the knife penetrated deeply into the muscles, but did not touch a vital spot. The wound on the other side was about four inches long and not as deep as the other. Mr. Logan's head was badly bruised from the blow. His injuries are not serious and he will be able to be about in a few days.

SATISFACTION IN FRANCE.

Paris, Oct. 27.—The announcement of the decision of Attorney General Knox that he found the title to the Panama canal property valid and unimpaired has been received here with much satisfaction by the officials of the company and the government. Mr. Launre, secretary of the company, said today that the decision bore out his contention before the Morgan committee of the senate. He expects that the next step will be the conclusion of a treaty with Colombia. While the secretary foresees some delay in ratifying the treaty, he says Mr. Knox's decision assures the carrying out of the Panama project.

The Pickwick club meets with Mrs. William Bidwell, of 49 Taylor street, Tuesday afternoon.

He will become minister of commerce and will also be a member of the joint commission to negotiate commercial treaties.

DRIVING OVER ROUTE TODAY

NEW INTERURBAN PROMOTERS IN THE CITY.

Fort Wayne, Bluffton and Richmond Company Holds Meeting for Organization Tomorrow.

Messrs. F. X. Schaeffer, Charles L. Durst, B. L. Castro and Albert Schaeffer, of Dayton, and Edward Mannier, of Bensenville, Ohio, arrived in the city shortly before noon today.

These are some of the gentlemen behind the project to construct a new interurban electric line between Fort Wayne, Ossian, Bluffton, Camden and Portland, with an ultimate extension to Richmond, and their present visit to Fort Wayne is for the double purpose of making a more complete examination of the proposed route and to complete the organization of the new company.

It is, as already announced, to be the Fort Wayne, Bluffton and Richmond Traction company, and four of the above named gentlemen, together with Will F. Dinnen, of Fort Wayne, will constitute the first board of directors. Tomorrow morning at the office of Olds & Doughman, the final meeting for organization will be held. The articles of incorporation were filed today.

This afternoon the Ohio gentlemen left the city for a carriage drive over a portion of the route, and will go as far southward as Ossian.

AUTO HITS TROLLEY CAR.

Yonkers, N. Y., Oct. 27.—Twenty-two injured, one of whom is liable to die, is the result of a smash-up yesterday between an automobile and a trolley car. The injured were all passengers in the trolley car, while the occupants of the auto and the motorman of the car escaped without a scratch, despite the fact that the auto was hurled to one side and the car jumped the track and turned completely over. The injured were carried in other cars to the residences of several physicians, and eight were taken to St. John's hospital, including the three worst injured.

An examination of the ground after the accident shows that the car ran a distance of about 100 feet after leaving the track, going at an angle, and landing across the east sidewalk of the street, against a high embankment. Had the car gone to the west side of the street it would have crashed over an embankment about thirty feet in height, and then have rolled down on the tracks of the New York Central railroad. The chauffeur, motorman and conductor were all locked up.

REPORT IS MISLEADING.

Catskill, N. Y., Oct. 27.—Major General S. B. M. Young is a guest of George W. McLanahan, of Washington, D. C., at Mr. McLanahan's country home here. General Young said today that a published report relating to the coming to America of non-commissioned officers of the English army was misleading. It is possi-

ble, he said, that the Englishmen, who are trained athletes, may come over and give exhibitions at the military tournament at Madison Square next spring, and such exhibitions, he added, might prove interesting to Americans as showing the results of physical training in England. The English training, according to General Young, is not superior to the system at West Point, but is much better than can be found at American military posts. General Young will leave for Washington this evening.

REJECT RESIGNATION.

Denver, Col., Oct. 27.—Members of the Central Christian church, by a vote of 154 to 12, have rejected the resignation of Rev. Bruce Brown, which had been tendered on recommendation of the elders. The action of the congregation was made unanimous on motion of one of the pastor's opponents. The opposition to Mr. Brown had its origin in his invitation to labor union leaders to discuss labor questions from his pulpit.

FORT WAYNE MEN DIRECTORS

WARSAW AND WINONA ELECTRIC LINE INCORPORATED.

Charles H. Worden Is Treasurer—Other Indiana Companies Prepare to Do Business.

(Special to The Sentinel.)

Indianapolis, Ind., Oct. 7.—The Warsaw and Winona Electric railway was incorporated today, and the names of two Fort Wayne men—Charles H. Worden and E. F. Yarnelle—appear in the list of directors. Mr. Worden is to be treasurer of the new company.

The Fort Wayne, Bluffton and Richmond Traction company was also incorporated today with a capital stock of \$50,000. William F. Dinnen, of Fort Wayne, is upon the board of directors.

Another new organization which filed its articles of incorporation this afternoon is the "New Jersey, Indiana and Illinois Railroad" company, capital stock, \$100,000. The latter company proposes to build a railroad from South Bend to Lakeville, where it will connect with the Wabash.

A BRIBER SENTENCED.

Minneapolis, Minn., Oct. 27.—Christopher Norbeck, formerly a member of the detective force, was sentenced today to three years in the state penitentiary for bribery. The sentence was made light in view of the fact that Norbeck was merely a tool in the hands of his superiors and that after his flight and recapture in the midst of his trial he made a full confession and gave evidence for the state.

A MYSTERY SEEMS SOLVED

A WEALTHY MAN ACCUSED OF LARIMORE'S DEATH.

TRAILED BY BLOODHOUNDS

THREE TIMES THE DOGS LED TO END OF SAME TRAIL.

Quincy, Ill., Oct. 27.—Millard Fillmore Lester, a prominent and wealthy farmer of Plainville, was placed in jail today charged with killing Frederick Larimore, who was found dead near his home in Plainville last Thursday night.

Lester, it is said, had warned Larimore to cease paying attention to the former's daughter and this directed suspicion toward Lester.

Bloodhounds went three times from the orchard, where the body was found, directly to the post in the village, where Lester had his horse hitched on the night of the shooting.

ADDRESS ON PRISON REFORM

ALEXANDER JOHNSON AT FIRST CHURCH.

Describes Indiana Penal System. Which Aims to Reform Rather Than Punish Criminals.

Alexander Johnson, superintendent of the I. S. F. M. Y. and one of the leading prison reformers of the state, made an address on "Prison Reform" at the First Presbyterian church on Sunday morning. At the beginning of his address Mr. Johnson remarked

"Dear Brethren in Christ—We are confident in the belief that the consensus of opinion of the professing Christians of our land is opposed to the evils of the liquor traffic, and we find a want of co-operation in practical effort to give effect to this opposition because none of the propositions heretofore made has met the approval of the general judgment of Christian people. We recognize that this is the case in our own body and we believe it is likewise true of others. As a result, the church exerts far less influence than it should to prevent the evils produced by this great cause of poverty and crime, and which, also, is a most serious obstacle to the spread of the gospel.

"We are deeply impressed with the convention that an earnest effort should be made to ascertain in what way Christians can exert a united influence in this cause and by what means they may work together. Upon what proposition can we obtain a practical agreement? We frankly confess that we are not competent to solve the problem, but we believe that by united inquiry and a prayerful seeking for divine enlightenment, with a willingness to approach the subject with an open mind, the united church may find a way by which we can serve the cause of Christ and the good of mankind in seeking the ultimate elimination of this stupendous evil. We therefore invite the governing bodies of the various denominations of Christians in the United States to appoint delegates to represent them in a conference to be held in the city of Washington to begin on the second Wednesday of March, in the year 1906. The decisions of this conference should be reached only in practical unanimity and therefore it is unnecessary to indicate any limit to the proposed representation.

BELIEVE IT A DUTY.

"We issue this invitation with an humble realization of the smallness of our body, as compared with many others, but we do it under a deep sense that this duty has been laid upon us and that God will use the proposed instrumentality for the accomplishment of great good to mankind and for the glory of His name.

"Believing that this proposition will meet with your approval and practical co-operation, we have appointed James Wood, of Mount Kisco, N. Y.; Rufus M. Jones, Haverford, Pa.; Timothy Nicholson, Richmond, Ind.; Benjamin F. Trueblood, Boston, Mass.; and Edmund Stanley, Wichita, Kan., with one additional delegate from each of eleven yearly meetings, to represent us at the conference.

"In the faith and love of Jesus Christ, we are your friends.

(Signed) "Edmund Stanley," "Presiding Clerk," "Elwood Q. Ellis," "Recording Clerk."

(Signed by direction of the meeting.)

DIED AFTER LONG ILLNESS

MISS HENRIETTE NESTEL SUC-
CUMUS TO TUBERCULOSIS.

Mrs. W. L. Burtfield Passes Away
at St. Joseph's Hospital—Other
Mortuary Matters.

Miss Henriette C. Nestel, eldest daughter of the late Daniel Nestel, died at 7 o'clock this morning at the old homestead, 815 West Creighton avenue, after an extended illness from tuberculosis.

Miss Nestel was fifty-six years of age. She was born in Fort Wayne August 6, 1846, had always resided in this city and had a large circle of friends. She had been in failing health for many months. Surviving relatives include two brothers and two sisters, Charles and Eliza Nestel, Mrs. Charlotte Brooks and Daniel Nestel. The father died four years ago last June.

Funeral services are to be held from the residence Friday afternoon. Rev. E. W. Allen and Rev. D. T. Williams will officiate.

BURTFIELD.

Mrs. Susie Burtfield, wife of William L. Burtfield, died at St. Joseph's hospital shortly after 5 o'clock Sunday morning. Ten days previously Mrs. Burtfield had suffered a perforation of the bowels and an operation was performed in the hope of averting fatal consequences. For several days the patient hovered between life and death; then there was apparently a slight gain that gave friends some hope, but complications developed, and the patient sank rapidly until the end.

Mrs. Burtfield was forty-eight years of age and was born and reared at Baltimore, Md. With her parents she removed to Ravenna, Ohio, where she was united in marriage to Mr. Burtfield, residing in that place until about ten years ago, when they removed to Fort Wayne. Mr. Burtfield is a salesman at the Coverdale & Archer grocery.

The deceased was a devoted member of Wayne street M. E. church, had a wide acquaintance and was universally esteemed. Her death is a severe shock to a very large circle of friends. Surviving relatives include the mother and a brother residing at Marion, and a sister, Mrs. Jonas Smith, of this city. Mrs. Burtfield was a member of Degree of Honor No. 23 and of Ben Hur court No. 15.

Funeral services will be held Tuesday afternoon at 1:30 o'clock from the residence, 1610 Wells street, and at 2 o'clock from the Wayne street M. E. church.

Rev. Dr. W. D. Parr will officiate, and the pall bearers will be F. N. Palmer, Stuart Rohrer, J. D. Tinsley, Dr. M. A. Mason, A. S. Coverdale and Dr. J. S. McCurdy.

STOFFEL.

None of the passengers were hurt, though many had narrow escapes.

tional collector in the Hazleton district. The Lehigh and Wilkesbarre company took back most of its former employees. Room has not yet been found for all the strikers at T. C. Pardee & Co. workings. At Beaver Brook all the old hands were reinstated. The Cox employees at Beaver Meadow were not required to sign any agreement, but all who applied for their old positions had to do so as individuals. The Cox Bros. & Co. officials announce that this will be the procedure at all of their mines.

SHOPS RESUME WORK.

Pottsville, Pa., Oct. 27.—The repair shops of the Philadelphia and Reading Coal and Iron Co., which have been operating on half time since the beginning of the coal strike, today resumed on full time. Nearly 1,000 hands were suspended owing to the strike and more than 800 of these today returned to work.

REMAIN ON STRIKE.

Tamaqua, Pa., Oct. 27.—Park Place colliery, operated by Lentz & Co., situated between Mahanoy City and Delano, did not resume today owing to the fact that the operators refused to take back fifteen union men discharged because of the claim that they were ringleaders in the disturbances which occurred during the strike. The union held a meeting yesterday and the members decided by a unanimous vote to stay out unless these men were reinstated. This strike affects nearly 1,000 men and boys.

GIVE LEADER A TOKEN.

Wilkesbarre, Pa., Oct. 27.—President John Mitchell, of the United Mine Workers, left here yesterday afternoon for Washington to attend today's meeting of the anthracite coal-strike commission. He was accompanied by District Presidents Duffy and Fahy. For several hours earlier in the day he was in conference with the district presidents, Nicholas, Duffy and Fahy, and outlined his case as he will present it to the board of arbitration in behalf of the miners. The same received the approval of the district presidents.

Yesterday afternoon President Mitchell was given a gold badge and gold watch by the Polish, Lithuanian and Slavonian members of the United Mine Workers. The badge bears his monogram, "J. M.," in diamonds just underneath the bar containing the pin by which it is fastened to the coat lapel. Below this is the button of the United Mine Workers of America, from which hangs a pendant—a tiny pick and shovel, with miner's lamp in the center, underneath of which is a medalion. The seal of the organization in the center is in the form of a breaker-boy standing in the midst of a bank of coal.

HOPEFUL OF FUTURE.

The presentation took place at President Mitchell's headquarters and a large crowd listened to the speeches of presentation and acceptance. Mr. Mitchell, in the course of his remarks, said:

"These gifts will ever remind me of the duty I owe to the great army of workers who have reposed confidence in me and followed my leadership during trying times. I shall regard it a great favor if you will express to the Polish, Lithuanian and Slavonian people my gratitude for the confidence they have so freely given me. I beg you to say to them that my highest ambition shall be to promote the welfare and advance the interests of all the men and women in their labor for a livelihood. 'I look forward to the time when strikers shall be no more; when peace and justice and right shall be secured for those who toil; when labor and capital, each recognizing its rights and obligations to society, shall work in harmony for the common welfare of our country and the general good of all our people. Gentlemen, I thank you with all my heart. I cannot express my feelings to you properly at this time.'"

District Presidents Nicholas, Duffy and Fahy and other leaders also made brief addresses.

Shortly before 4 o'clock Mr. Mitchell left headquarters for the Lehigh Valley depot and was accompanied to the station by a large and enthusiastic crowd. When he boarded the train he was cheered and wished goodspeed.

A movement is said to be on foot among the Polish, Lithuanian and Slavonian miners to raise a large sum of money for Mr. Mitchell.

Mr. Mitchell said he had no desire for a fund of this character, as it would separate him from his fellow workers. He believed that no man can acquire great wealth without wringing it from the toil of some fellow man. He spoke of the labor movement as it stands in the United States today as an American labor movement. In contradistinction he referred to the British labor movement, which in some features—for example, the restriction of the quan-

tity of labor—does not meet with his approval. The American labor movement only wants to restrict hours. It places no fetters on genius or a man's capability.

LITTLE COAL FOR MARKET.

Reading, Pa., Oct. 27.—The Reading company has sent to market comparatively little anthracite coal since Saturday. On Saturday forenoon one train of anthracite of domestic size passed through, but since then comparatively small shipments have been made. By this evening it is expected that considerable coal will be en route from the mines owned and operated by the Reading company. Today crews were out delivering the light cars to the various collieries in operation and everything about the regions is assuming a business-like air.

QUIET AT SAN DOMINGO.

Washington, Oct. 27.—A cablegram was received at the navy department today from Commander Patch, of the United States cruiser Montgomery, which is on her way from Colon to San Juan, stating that he had found everything quiet at San Domingo City, where it was reported last week that a rebellion had broken out. This being the case, the Montgomery will carry out her original orders and as soon as she has replenished her stores at San Juan she will relieve the Cincinnati, which is stationed at Cape Haitien, allowing the latter vessel to come northward. The Ranger, which has been on duty at Panama for several months past, has started for San Francisco. In announcing her sailing from Panama the commander of the Ranger made no mention of the reported arrival in Panama bay of the newly acquired Colombian gunboat Bogota, which is expected to clear the insurgent navy out of the isthmian waters.

COFFEE FLYERS.

Can Be One if You Stick to It.

The coffee habit is as injurious as other drug habits of the same nature. Don't think so? Well, dig in and see. The system craves a stimulant more and more until finally the victim wakes up.

When we are as fortunate as Mr. James B. Kimble, of Northampton, Mass., to realize that we have got to stop or the penalty will be severe, it is a little startling at first to consider. He says: "I was an inveterate coffee drinker during twenty years of my life."

"The first ten years I experienced no ill effects from the coffee, but its insidious working brought forth a train of evils later on. I became very nervous and irritable, in fact felt all the time as if I should 'fly to pieces.' My nerves were all unstrung and I craved coffee as a taper does liquor, in truth I was a 'coffee toper.'"

"My appetite became very poor and solid food repugnant to the sight; dyspepsia and indigestion were my inseparable companions and food did me but little good. About four years ago a friend advised me to try Postum Cereal Food Coffee. I was loath to believe that coffee was the cause of my trouble therefore I did not have much faith in Postum, nevertheless I commenced its use and from the very first I experienced a decided benefit. My appetite returned, food began to taste natural and did me good. My nervousness gradually disappeared; the brain became clear, the loss of strength and flesh arrested and the stomach gradually strengthened. Life seemed once more worth living and the continued use of Postum has not disappointed me. To me coffee proved slow poison. I have found Postum to be a builder and sustainer of the system and I heartily recommend it to the slaves of coffee without a single reservation."

Mr. Kimble mentions in his letter many of his friends in Northampton who have recovered health and strength from using Postum on his recommendation.

Not even a whole week of glorious sunshine has served to warm up the campaign in Indiana. And falling temperature predicted, at that.

"Stand by the president," is the battle cry that has gone forth from the republican leaders in Washington. This, of course, is not expected to apply to the sugar crowd that didn't stand by him last winter.

Hon. Gas Addicks announces that he intends to abandon the republican party of Delaware to its fate. If that fate is as awful as its fate has been since Addicks began to run its affairs, the republican party in Delaware will need nothing so much as an undertaker.

Commenting on the alleged efforts of Senator Mason, of Illinois, to become a democrat, Henry Watterson says one principle cannot make a democrat any more than one swallow can make a summer. Very true. And speaking of swallows, it takes a whole lot more than one to make a good Kentucky democrat.

If the present rush of juveniles into the arms of the police continues Fort Wayne will need not only a juvenile court, but a place for confining

them. While bad boys, like bad men, are in some degree inevitable, the present condition in this city must be regarded as wholly abnormal. Some interesting sociological facts might be brought out by an inquiry into the history of each of the score of cases that have received attention of the police department during the last two or three days.

The anti-saloon league is doing effective work in Indiana closing saloons that disobey the laws. It is said that during the past six months over two hundred saloons have been closed in Indiana as the direct result of the league's efforts. Fort Wayne offers a broad field for the operations of the anti-saloon league, where the liquor-selling houses no longer make pretense of obeying the law. For instance, in one saloon a bloody and brutal fight occurred early Sunday morning and one of the participants was beaten so badly that he is confined to his bed. It does not answer to say that affidavits have been filed against the saloonkeeper. That is merely because there was a fight in his place. No affidavits have been filed against the scores of other places that were open and doing business at the same unlawful hour. There is but one way to command obedience and enforce good order and that is to insist impartially on observance of the laws.

Mrs. Elizabeth Cady Stanton is dead. At the ripe age of almost eighty-seven years this valiant warrior for the rights of her sex has gone to receive what few will doubt and all must hope is the rich reward of a life of good works. With the single exception of Susan B. Anthony Mrs. Stanton was the most eminent of all the propagandists of equal suffrage for women. For many years Miss Anthony has been the recognized head of the movement—the Nestor, if such a figure in this connection be permissible, of the suffragist cause. But it is a historical fact that Mrs. Stanton's interest in and support of the cause were enlisted some time before Miss Anthony became identified with the suffragists. The work of the two, however, had been for nearly half a century so closely identified that what may be said of the activities of the one in most cases applies equally to the other. Mrs. Stanton was a woman of exquisite refinement, broad culture and striking mental force. None who has ever sat under the spell of her oratory as she demanded with glowing eloquence recognition of the rights of her sex will be apt to forget her. An estimate of her half century of labor in the cause of woman suffrage and the rights of women generally may best be made in statement of the fact that when she enlisted in the cause women had few rights at law and no suffrage whatever in this country. Today the law recognizes her property rights and in many respects her distinct rights as wife and mother, while in many states she enjoys restricted franchise and in four states—Utah, Colorado, Idaho and Wyoming—the franchise as it is exercised by male citizens has been placed in her hand. The propaganda goes on and it is not taking the future too much for granted to say that in a few years many more of the states will give women the ballot. When all is set down that has grown from the labors begun by Mrs. Stanton before the civil war and continued almost to the day of her death, it is seen that a mighty fruitage has been gathered by the women of America.

AT RIPE OLD AGE

MRS. ELIZABETH CADY STANTON CALLED HIGHER.

A FAMOUS LIFE IS ENDED

EARLIEST LEADER OF THE WOMAN SUFFRAGISTS.

BEGAN WORK BEFORE WAR

DEATH WAS DUE TO INFIRMITIES OF EXTREME AGE.

New York, Oct. 27.—Mrs. Elizabeth Cady Stanton, the noted woman suffragist, died yesterday at her home in West Ninety-fourth street in this city. She was conscious almost to the last. More than a week ago Mrs. Stanton began to fail. This be-

came more noticeable during the last few days, and then it was known to the family that her death was only a question of days or hours. She succumbed to the infirmities of old age.

The children with Mrs. Stanton when she died were Mrs. M. F. Lawrence and Mrs. Stanton Blatch, of New York; Henry and Robert L. of New York; lawyers; Theodore, of Paris, and G. Smith, a real estate broker at Warden Cliffe, Long Island. The funeral will be held on Wednesday. The interment will be in Woodlawn cemetery.

Elizabeth Cady Stanton came of Puritan stock, and was born Nov. 12, 1815, in Johnstown, N. Y. Her father was Judge Daniel Cady, a distinguished lawyer of the time. Her mother was Margaret Livingston. She was the daughter of James Livingston, an officer of the Revolutionary army. It was he who fired on the British ship Vulture when that vessel anchored in the Hudson river. This was at the time that Benedict Arnold was plotting treason.

ALWAYS SELF-RELIANT.

As a child Elizabeth Cady Stanton, or Elizabeth Cady, as she was then, was precocious—perhaps self-reliant expresses it better. She was imbued with a desire to master Greek, and she applied to her pastor, an old Scotch clergyman, for instruction. Being of an alert mind and blessed with a good constitution, she made rapid progress in the undertaking. She then took up Latin, mathematics and other manifold studies. She had a very proficient instructor in her brother-in-law, Edward Bayard, of Delaware. From this man she learned much of poetry and art, and also of physical culture.

When Elizabeth Cady was 16 she entered Mrs. Willard's seminary at Troy. Before this she expressed a desire to go to Union college, and when she was made aware of the discriminations against women that rendered her ineligible for admission to that famous old seat of learning.

INTERESTED IN ABOLITION.

After leaving the seminary and returning home Mrs. Stanton was thrown in contact with her cousin, Gerrit Smith, the eloquent abolitionist. She became greatly interested

in this movement also, and was forcibly struck with the similarity of the conditions which oppressed white women and the slaves of the south. It was at the house of the abolitionist that Mrs. Stanton met the man who became her husband. Her marriage took place in 1840. They went abroad on their wedding trip, and attended the anti-slavery convention in England. A great many women had come on to attend the convention, but they were not allowed to take their seats as delegates.

SPEAKS BEFORE LEGISLATURE.

Mr. and Mrs. Stanton came back to America, and then followed one of the most interesting episodes of her life. After her return she had, in company with others interested in female suffrage, been agitating the matter throughout the state. She received permission from the legislature for a hearing on the subject of the married woman's property bill. Her father heard that she was going to address the legislature, and was incensed thereat, but she pleaded her

HIGH SCHOOL DEFEATED.

The high school team was defeated at Warsaw Saturday by the close score of 12 to 10, losing out on account of inability to kick goal. The team was composed mostly of substitutes and the line-up was considerably changed, so that the showing made by the boys was good. In the first-half Warsaw started to play a hurricane game and scored two touchdowns, but in the second the Fort Wayne boys took a brace and played a good game, making two touchdowns, but failed to kick goal. The next game will be with the Goshen high school team.

Four of the Wolff team were unable to play Saturday and consequently the game at Wabash with the Wabash A. A. team was declared off. Next Saturday the Van Wert, Ohio, team will play here.

The office force of the Pennsylvania company has organized a team and is endeavoring to get a game with the Huntington business college team.

MANY PEOPLE VISIT IT.

The new addition just platted by the Commercial Land company as a site for new factories was an attraction yesterday afternoon for nearly five hundred people, who visited the place to note the start that has been made toward erecting factory buildings. The foundation for the Knott-Van Arman company's works is nearly completed and the steel company has commenced the work of getting material upon the ground.

ECZEMA

is due to the retention in the system of Urlic Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and oftenest attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

S. S. S. contains no minerals but is guaranteed purely vegetable. Write us if you need medical advice; this will cost you nothing. Illustrated book on skin diseases sent free.

JAIL FOR SOME BAD BOYS

JUDGE DREIBELMIS METES OUT PUNISHMENT.

Bicycle Thieves Must Pay the Penalty—Other Boys Released—
News of the Police.

Judge Drebelmis was in rather an amiable mood this morning and was inclined to leniency in spite of annoying circumstances. Of the plainly defined cases of adults he made short work, but the other and more indeterminate cases of youngsters, some less than 10 years of age, gave him more food for reflection.

In the cases of the boys, those who had not been arrested before were allowed to go after a reprimand and in the case of three others one was sent below to await a decision to be given later in the day and the other two were fined \$1 each and were sent to jail. Before imposing the sentence the judge sent for Sheriff Stout and asked him whether he could confine the boys without throwing them in contact with the other and older men imprisoned. Sheriff Stout said he would provide for them in the hospital ward and would keep them away from the general run of prisoners; mittimus were then issued.

OTHER CASES IN COURT.

R. Halsburgh was charged with public intoxication and also cruelty to animals. He pleaded not guilty to the first charge, but to the second answered that he had unintentionally overdriven a horse which he had hired yesterday at the Hostman stable. A fine of \$1 and costs was assessed and the docket was stayed.

Charles Fern, a young man identified as belonging to "the East End gang" was charged with drunkenness and he pleaded guilty. Evidence showed that he had insulted ladies on the street yesterday and after a pointed remark by the judge that the aforementioned "gang" would be broken up at all hazards, a fine of \$3 and costs was assessed and a mittimus was issued.

Walter Asher appeared in court sans cent, but with a warm growth of whiskers. He pleaded guilty to a charge of expelling his person and on his confession he was fined \$1 and costs to which the judge added twenty days in jail. From conversations had with the man by disinterested persons it has been concluded that he is mentally unbalanced. While he is serving the sentence imposed by the court his general character will be inquired into.

John Medes looked like a fair sort of a workman and his barge was

unmistakably Irish. He was charged with train-climbing. "Yes, share, I climbed on the train," said Medes, his face aglow with honesty, "but I didn't climb any train here in this town. I got on the train in Sheboygan and never got off again until I got to your town, sir. I got off here, share enough, but never a climb did I make here. I'm sorry now, maybe, that I got off or that I didn't get back on again."

"Could you get out of town in an hour?" asked the judge.

"Begor, I dunno—but I think that's givin' me too much time. I'd like to stay in the town and get me a good job, but if it's an hour I got to get out I kin make it—thank you, sir," and John was off.

Edward Murphy was charged with plain drunkenness. He pleaded guilty, but said he had never been arrested before. Incidentally he remarked that he had been here two weeks and had been drunk two days. He went over for eleven days.

THE KINDERGARTEN.

Then came the kindergarten. Harry Miswonger, Carl Stadler and Roy Cox, aged from 9 to 12, were arraigned on charges of stealing bicycles. Miswonger and Stadler had been up before and Cox was once charged with having abstracted some money from his mother's purse, but there was no prosecution. Two of the boys admitted to having stolen three wheels apiece and the other of having got away with only two. Miswonger and Stadler had been warned before and after a consultation with the sheriff, who agreed to provide separate quarters for them and keep them away from older prisoners, the judge said that he would send them over for eleven days each. In the case of the Cox boy the judge said he would consider the matter, but would not release him at once. He ordered him sent below until some time later in the day, when he would decide upon his case.

Martin Brown, living at the corner of Pontiac and John streets; Edward Pank, 2804 Gay street; Charles Hilker, 3038 Smith street; Herman Hoepner, 2729 Gay street, and Adolph and August Shultz, of 3002 Gay street, were the other youngsters arrested and held for petty thieving, including bicycle raids. Their principal transgression, however, was the persistent robbery of Mrs. Rose's bakery wagon. When the boys were first arrested and let go they were told to present themselves this morning and be sure to be accompanied by one or the other of their parents. Brown and Hilker were not accompanied by any relatives and blandly told the court that their parents were too busy to come down this morning. In spite of that all were let go with a strong proviso and a strong string attached. They were told that they

must arrange a settlement with Mrs. Rose for the cakes stolen and that she must be paid. The court then again emphasized the declaration made last week and said that if the settlement called for was not promptly made they would be brought into court again and that then their parents could have the alternative of administering a public chastisement in open court, pay a fine or see the little fellows go to jail to serve the sentence which would surely come.

"I know it looks a little tough," said the judge, "but we've got to come to it. I don't want to judge anyone harshly, but I have to do a personal investigation of some of the complaints, and I believe that in most cases the fault lies with the parents themselves. If it does they can find the remedy; if it don't I will have to find it. This kid nuisance is getting to be something abominable and the people who suffer from their pranks are entitled to some sort of protection and I am going to try to furnish it."

POLICE NOTES.

Officer Bergman is sick and has been off duty for several days.

Investigating boys discovered that the windows in the Franklin school building can be broken. It took four shots to demonstrate their frailty and in consequence four windows are shy on glass.

Fred Rehling, of 2403 John street, reported that his little girl had been bitten by a neighbor's dog.

SANTA MARIA IN ERUPTION

VOLCANO IN GUATEMALA IS VERY ACTIVE.

Department of Quezaltenango is in Great Alarm, Though No Damage Has Been Done.

New York, Oct. 27.—Since Saturday morning the volcano of Santa Maria, in the department of Quezaltenango, northwest part of Guatemala, has been in eruption, cables the Herald correspondent at Managua, Nicaragua.

The eruption is attended with a terrifying roar and shocks are felt all over Nicaragua, Salvador and Costa Rica.

No damage has been done here, but there is great alarm.

Santa Maria has not been considered an active volcano. There are several towns and villages near it. It is only about ten miles from the recently ruined town of Quezaltenango and fifteen miles from Memetango, which has about six thousand residents. The height of the volcano is 12,457 feet, or about three times as high as Mont Pelée in Martinique.

Guatemala suffered severely from earthquakes several days last April, when many towns and villages along the Cordillera were either totally or partly reduced to ruins. The towns of Quezaltenango and Amatlan, capitals respectively of the departments bearing the same names, were destroyed.

IN A ROUGH HOUSE.

On Saturday night George Kallenbacher and Fred Karber, neighbors living on John street, south of the railroad, became involved in a quarrel of uncertain origin at Herman Oertel's saloon, corner Wallace and Force streets. Karber was badly beaten and a pair of murderous looking lead "knucks," covered with blood, were found on Kallenbacher and are at the police station to be used as evidence against him. He was arrested after the affair, but subsequently gave bond for his appearance at police court this morning.

Today Karber was unable to appear, being confined to his bed from the effects of the beating and the case was continued until next Tuesday morning, Kallenbacher in the meantime giving bond in the sum of \$150. During the interim things will be doing to interest Mr. Oertel, at whose honoreary the fracas occurred. An affidavit has been filed against the proprietor for allowing other than members of his family in his saloon after 11 o'clock and another affidavit has been filed against Charles Rose, his bartender, and then, to make it still more interesting, a third affidavit has been filed against Kallenbacher for carrying concealed weapons. All these cases will be called as soon as Karber is able to appear as a witness.

than members of his family in his saloon after 11 o'clock and another affidavit has been filed against Charles Rose, his bartender, and then, to make it still more interesting, a third affidavit has been filed against Kallenbacher for carrying concealed weapons. All these cases will be called as soon as Karber is able to appear as a witness.

ABLE TO WITH THE WORLD.

Liverpool, Oct. 27.—Vice Admiral Lord Charles D'Almeida arrived yesterday from New York on the steamer Britannia. In the United States Lord D'Almeida studied the construction of American battle ships and also investigated shipping matters. As a result of his trip he thought public men ought to endeavor to band Britain and America more firmly together.

"If Great Britain and the United States," said the admiral, "were joined in the interests of universal peace, and if the rest of the world wanted to fight these countries, then let the rest of the world look out." The admiral also said he could vouch for the genuineness of the kind sentiment entertained in America for Great Britain. His investigations on the other side convinced him that Great Britain had nothing to fear from the International Mercantile Marine company. On the contrary, he believed this combine would benefit England commercially and otherwise. "The United States," said the admiral, "are certainly ahead of us in engineering and administration and we need to adapt ourselves more to modern ideas." He did not think, however, that Great Britain was going down hill.

A MYSTERIOUS AFFAIR.

Chicago, Oct. 27.—The body of Nela Anderson, said to have been one of the best known steamship men in the country, was found today in a clump of bushes on the Washington Park golf links by a passing policeman. Considerable mystery surrounds the case as a bullet hole was discovered in the man's head, but no trace of any weapon could be found. Anderson was at one time general agent of the White Star Steamship company, was also at one time connected with the Atlantic Steamship company. His home was in Chicago.

KING REVIEWS GUARDSMEN.

London, Oct. 27.—King Edward reviewed today nearly 4,000 guardsmen who have recently returned from South Africa. The king afterwards addressed the troops, welcoming them to home. He praised the work which they had done in the field, saying: "You have upheld the great name of the proprietor for allowing other than members of his family in his saloon after 11 o'clock and another affidavit has been filed against Charles Rose, his bartender, and then, to make it still more interesting, a third affidavit has been filed against Kallenbacher for carrying concealed weapons. All these cases will be called as soon as Karber is able to appear as a witness."

served in the guards a proud man. I myself feel proud to have, as a young man, served in your ranks, though I regret I never had the opportunity, like my brother, of seeing active service. A finer body of men it is impossible to wish to see. It is a proud day for me to have inspected the guards' brigade." In spite of their arduous duties in South Africa, the king remarked, the men had not forgotten their drill and the march past today was as well done, if not better carried out, than ever before. The queen and other ladies of the royal family drove past in carriages. At the conclusion of the ceremony the troops gave a hearty cheer for the king.

ACCUSED OF POISONING.

London, Oct. 27.—George Chapman, who came from America in 1893, and who is now the landlord of a Southwark saloon, was arraigned at a police court today charged with having poisoned a young woman who had lived with him as his wife. It transpired that this was the third woman who had died within five years in houses owned by the prisoner and it is said the affair may develop in a manner similar to that of the celebrated Neill (Cream) poisoning case, in 1892. Thomas Neill (alias Cream), M. D., was convicted in London of the murder by strychnine of Matilda Clover, an unfortunate woman, Oct. 21, 1892, and was executed Nov. 15 of the same year. He was accused of the murder of three other women.

HAN A TEN PENNY NAIL THROUGH HIS HAND.

While opening a box J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed. For sale by all druggists.

NISFORTUNE OF MONEY

Rich People go to Hot Springs, Germany, and Have Special Treatment, but Still Have Their Rheumatism.

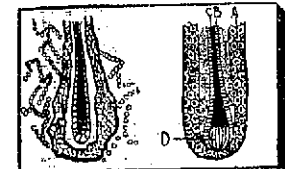

We poor people feel sorry for the rich, they won't get something because it's cheap or advertised. It's a luxury to spend small fortunes and a luxury to be sick. It's "improper" to be cured at a dollar a bottle, although we have many rich clients, who are sensible and wouldn't be without Athlophoros.

In fact, Athlophoros was originated for a rich man by one of the most famous physicians. It gets at the Uric acid and dispels it. When that is done the Rheumatism is gone. It works every time.

The Uric acid clogs and poisons the blood, disables the body more or less. Athlophoros is as soothing as "oil to a burn," and especially at acute attacks will allow the breadwinner to get back to his work. It saves lots of needless suffering, and makes life worth living. All druggists sell it, or The Athlophoros Co., New Haven, Conn., will send a bottle for one dollar. It is within the reach of everyone and makes health possible to all.

THE MARKETS.

Chicago, Oct. 27.—Large world's shipments, liberal receipts in the northwest and lower cables all combined to cause a weaker tone to the wheat market at the opening today. The local crowd was inclined to the bear side and offered freely, while the buying was scattered. The volume of trade early was light and prices held about steady. December opened unchanged to 1/4¢ lower at 72 3/4¢ to 72 1/2¢, sold down to 72 1/2¢, but on the decline shorts were fair buyers and the price rallied to 72 3/4¢ to 72 1/2¢. Minneapolis and Duluth reported receipts of 1,212 cars, which, with local receipts of 123 cars—3 of contract grade—made total receipts for the three points of 1,405 cars, against 1,400 cars last week and 1,023 cars a year ago.

A good export demand caused a firm feeling the latter part of the session and December sold up to 72 3/4¢, but declined again to 72 1/2¢. The close was 1/4¢ higher at 72 3/4¢. Corn opened weaker on continued fine weather for the movement and larger local receipts than estimated. Trade was small, local longs were disposed to unload and there was some liquidation of both December and May holdings. December opened 1/4¢ to 1/2¢ lower at 51 1/2¢ to 51 1/4¢, selling down early to 51 1/4¢. Local receipts were 282 cars, with 48 of contract grade.

The close was easy, December 1/4¢ lower at 51 1/4¢ to 51 1/2¢.

Oats opened slightly lower in sympathy with lower prices in other grains and trading was a continuation of that manifested during the past few days, there being no special feature to the market. December opened 1/4¢ to 1/2¢ lower at 31 1/2¢ to 31 1/4¢ and early sales ranged within a narrow limit. Local receipts were 301 cars.

Provisions opened lower on heavy receipts of hogs at the yards, which resulted in lower prices. There was some selling by commission houses of pork, but offerings were readily taken by local shorts and the early loss was largely regained. January pork opened 10¢ lower at \$15.50; January lard was 2 1/2¢ lower at \$9.12 1/2; and ribs were 5¢ lower at \$8.15.

THE DAY ON WALL STREET.

New York, Oct. 27.—Lower prices were reported for American securities in London and the local market also opened under pressure in sympathy. Saturday's realizing sales were continued in the coaters and lending railroads, but the losses were limited to small fractions. Colorado Fuel was the only feature and advanced 2 1/2¢ on a few transactions.

Prices declined abruptly and dealings were in larger volume than for some time. All the leading stocks were affected and the pressure was quite general, but if anything more pronounced in the western and soft coal stocks. Losses ran from 1 to 1 1/2¢ and included practically every stock of importance on the list.

Prices steadied momentarily, and

there was some recovery, but the movement was hesitating and business was very small on the rebound. Reports of labor dissatisfaction in the west and the uncertain local monetary conditions encouraged bear selling and liquidation of long stock by tired holders. Toward mid-day St. Paul was sold anew and dropped 2 1/2¢ to 189 1/2, causing a setback all around. Atchafalpa and the Pacific declined to the lowest, but the general selling was not so large as during the early decline.

Bonds were easier at noon.

The idea of forming a new county out of townships taken from Howard, Carroll and Clinton counties has been abandoned. It was found that the change would reduce the area of Carroll and Howard counties to a point less than the law allows. The new county would have an area of 180 square miles, while the law provides for 200 square miles. The new county was to be called Forest, and Burlington was to be the county seat.

BLODGETT IS DEAD

LAKE SHORE MANAGER'S CAREER IS ENDED.

LOOKING OVER NEW ROAD

PENNSYLVANIA OFFICIALS INSPECTING C. & S. H. ROAD.

FIREMEN HOLD A MEETING

TAKE IN SOME NEW MEMBERS FROM MUNCIE.

Cleveland, Ohio, Oct. 27.—P. S. Blodgett, general manager of the Lake Shore railway, died today at his residence, No. 36 Vienna street, this city, after a long illness. Mr. Blodgett was 59 years of age and was widely known in the railway world. He began his railroad career as a clerk at Adrian, Mich., with the Michigan Southern and Northern Indiana line, which afterwards became a part of the Lake Shore system. He was soon promoted and transferred to Elkhart, Ind. Subsequently he was made superintendent of the Detroit division of that road, which position he filled for about five years. The next move was to Chicago, where he was made freight agent for the Lake Shore. He remained there for nearly ten years. In 1890 Mr. Blodgett was advanced to superintendent of the eastern division of the Lake Shore, with headquarters at Cleveland. In May, 1896, he secured the office of general superintendent. He remained in this position until June, 1901, when he accepted the general superintendency of the New York Central. Here he was the head of the large operating department for a little less than a year when he was made general manager of the Lake Shore. Drowsy was the direct cause of Mr. Blodgett's death.

Situation Unchanged.

Up to 2:30 o'clock today President Ramsey's statement concerning the wage scale at the shops had not arrived and the situation, from an outside view, is but little changed from that of Saturday. John J. Cleary and F. C. Nohrward, who represent the Fort Wayne boilermakers on the wage committee, left Saturday night for Springfield, where they were called by the general committee representing the entire system. N. J. Murphy, who serves the Fort Wayne machinists in a similar capacity, has been in Springfield several days and a letter from him today stated that a meeting of the committee with J. B. Barnes, superintendent of motive power, had been arranged for this morning. James Conroy, a blacksmith, who went to Springfield Saturday morning, presumably to lay a petition for increase in wages before Mr. Barnes, returned yesterday. Mr. Conroy had nothing to say for publication and whether his mission was successful or otherwise remains for the future to develop. The petition for an increase in wages by the blacksmith department was not generally known outside of that shop. Messrs. Murphy, Cleary and Nohrward are expected home this evening.

Will Be Finest in City.

Plans for the lavatory to be erected where the old boiler plate shed was, between the Pennsylvania machine shop and boiler shop, have gone into the hands of the men having charge of the work of building and equipping it. The lavatory will have basins to accommodate over 200 people at once and will be the best in the city of its kind. The entrance gate to the shops at the end of the lavatory will be a highly ornamental iron affair, which will add to the appearance of the walls from an outside view.

Looking Over New Road.

Motive Power Superintendent D. F. Crawford, Chief Car Inspector W. W. Todd and Chief Clerk F. D. Reed have gone to Columbus, Ohio, to examine into the physical condition of the Columbus, Sandusky and Hocking railroad, which is soon to become a portion of the Northwestern system of the Pennsylvania company lines west of Pittsburg.

New Cars for the Pennsylvania.

Five combination cars for the Pennsylvania company were turned out of the Pullman works this morning. Two of these cars have eleven feet at

one end for baggage and the balance of the space is equipped for passengers. They will go into suburban service out of Allegheny. The other three cars have thirty-five foot baggage rooms and equal space for passengers. They will become a part of trains 24 and 25, running through this city. These cars are wide vestibuled, equipped for electric lighting and are up to date in every particular.

Held a Special Session.

A. G. Porter lodge, No. 141, Brotherhood of Locomotive Firemen, held a special meeting yesterday afternoon to transact some business that could not be transacted at the meeting tonight. M. Dick and P. T. Bundy, of Muncie, were taken into full membership at this meeting. Muncie has no lodge of the B. of L. F. and a number of the firemen who make that city their home are members of the A. G. Porter lodge. Messrs. Dick and Bundy are employed on the Lake Erie and Western road. The meeting yesterday was held in the hall of the Brotherhood of Railway Trainmen.

State R. R. Y. M. C. A.

At the meeting of the State association of the Y. M. C. A. at Peru November 20 to 23, inclusive, C. H. Newton, of Cleveland and a former citizen of Fort Wayne, will inaugurate the movement for an Indiana branch of the railway Y. M. C. A. In the state meetings that department has been associated with the regular Y. M. C. A., but it is believed that the interests of the railway men could be better served were the two separated. Mr. Newton has held a responsible position in the state association ever since the first meeting and he is still interested in the work.

New Names on Pay Rolls.

Among the persons who took employment at the Fort Wayne Electric works this morning are the Misses M. E. Sauerwein and Mamie Hartnett, Edgar Kretschmer, Arthur Kynaston and Arthur Sahli. The latter arrived in the city a week ago from Switzerland. He is a nephew of Gottlieb Haller. Edgar Kretschmer is a son of John R. Kretschmer, foreman of the Pittsburg planing mills. At the car shops Frank Neher, L. B. Hilder, Frank Grim, O. E. Shroyer and J. R. O'Leary took positions this morning.

Brakeman Gebfert Home.

Christian Gebfert, the Pennsylvania brakeman who had both legs cut off at Clark Junction September 4, was brought to this city on train No. 8 Saturday evening and he is now at his home on Will street. Mr. Gebfert's recovery surprises the surgeons and hospital attendants who had charge of him during his stay in the hospital at Chicago. A strong constitution and temperate habits did much to save the brakeman's life.

Cassatt Starts on Trip.

President Cassatt and the board of directors of the Pennsylvania railroad left Philadelphia today in a special train on their annual tour of inspection. The trip will extend as far west as Cleveland and from that point the party will proceed to Buffalo via the Lake Shore road, returning to Philadelphia Friday afternoon.

Off on Pleasure Trip.

The Wabash did a fairly good business in the way of sending pleasure seekers out of the city last night. John Trautman, Fred and Joseph Yeager and Charles Labrum, of this city, and three men from Huntington, composed a hunting party which left for the wilds of Maine. To be gone two weeks. There were eleven excursionists bound for the Pacific coast country on No. 9 when that train pulled out for the west this morning.

The Excursions.

The only two incoming excursionist yesterday were over the Cincinnati, Hamilton and Dayton and the Lake

You can use it and it will cure you money back. Mr. Cooper, of Pittsburg, Michigan City, Ind., says: "I work hard and lift a great deal. The piles brought on an attack of piles. They itched and they protruded and bled. Nothing helped them until I used Dr. A. W. Chase's Ointment. That cured them." See a box at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N.Y.

MOTOR CYCLIST KILLED.

New York, Oct. 27.—Frank E. Elwell, of Brooklyn, an international authority on motor cycling and a frequent contributor to the magazines devoted to this sport, has been killed near Hicksville, L. I., while participating in a club run. The head stem of his machine broke as he was speeding along at a fast clip and he was hurled to the ground with such force that his neck was broken.

Elwell had traveled through Europe, Asia and northern Africa on the machine that caused his death. There were seventy-two cyclists in the party. Elwell was the last man in the string. As the party neared Hicksville he put on full power in order to catch up with the others and while crossing the railroad tracks his machine suddenly fell apart. When a physician reached him he was dead.

ASSAULTED AT HIS HOME

CHRISTIAN KRUSE WILL BE ASKED TO PROSECUTE.

Uninvited Guests Make Trouble at a Small House Party—General News of Courts.

Deputy Sheriff Huggenbush went out to the residence of Christian Kruse, just east of the city, on the Mayville road, this afternoon, to inquire whether Mr. Kruse would appear as a witness against two men who assaulted him in his own doorway last night. The facts appear to be simply that two Fort Wayne men called at the Kruse wedding and insisted on intruding upon a party which was in progress. Being refused, they asked for a glass of wine, which was served by Mrs. Kruse. The men again insisted upon becoming members of the little house party and on a repeated refusal one of them struck Mr. Kruse in the face. The officers know the names of the two uninvited guests, but decline to give them publicity unless Mr. Kruse will consent to file the affidavit.

News of the Courts.

In the superior court the case of the Smith-Nixon Piano company vs. Calderwood, is on trial before a jury.

George Hiers and Joseph Barkdoll, each sentenced to Jeffersonville from two to fourteen years, were taken away this morning.

The county commissioners will meet tomorrow morning to consider and fill vacancies on the numerous election boards in the county. The boards were filled some time ago, but since then removals, resignations and other events have caused vacancies which will be filled tomorrow.

In the circuit court Fanny Hippenhauer was this morning adjudged of unsound mind and declared incapable of managing her own estate.

Jacob Howenshine has filed an affidavit for surety of the peace against Louis Crowl. Mrs. Howenshine is the divorced wife of Crowl.

WILL MARRY AT TOLEDO.

John M. Riedmiller, a member of the Gentile Brewing company, is in Toledo, preparing for his marriage to Miss Louise Fisher, of that city, which will occur on Thursday. Since the death of his father, ex-Councilman J. M. Riedmiller, which occurred many years ago, the present John M. has lived with his mother, Mrs. Catherine Riedmiller, on the old homestead, and his filial devotion led most of his friends to believe that bachelorism with him was certainly incurable. It remained for Miss Fisher, daughter of Professor Fisher, teacher of German in the Toledo high schools, to disillusionize Mr. Ried-

miller's friends. After a brief tour Mr. and Mrs. Riedmiller will take up their permanent residence in this city.

IS NOW A CITIZEN.

Frank Cornish, a Canadian, made the first declaration of citizenship Saturday evening before United States Commissioner T. J. Logan.

Rev. J. Webster Bailey, of Plymouth Congregational church, left at noon today to attend the meeting of the Michigan City association of Congregational churches, which is being held today and tomorrow at Elkhart. Rev. Bailey will deliver an address this evening.

Salad for Luncheon

That means meat to be chopped—perhaps half a dozen other things—you know all about that.

The old way was to use the chopping bowl and knife, a long and tiresome operation.

The new way is to use the Universal Food Chopper, a little machine that does better work than the chopping bowl and knife, and makes housework a pleasure.

A call will be appreciated.
